THE FIELD OF POLITICS.

Governor Cleveland Formally Notified of his Nomination.

THE ADDRESS AND THE SPEECHES IN FULL

The National Committee of the Labor Party Decides that no Candidate is Wanted—Meeting of Irishmen Opposed to Cleveland.

ALBANY, July 29.—Among those who will be present at the notification of Governor Cleveland this evening, besides the members of the two committees, will be Judge Abbott and E. P. Hilburry of Boston, ex-Speaker Randall, Speaker Carlisle, Governor Dorsheimer, Lewis B. Faulkner and the following ladies: Mrs. W. P. Hoyt and Miss R. E. Hoyt, sisters of the governor; Misses Mary and Carrie Hastings, daughters of the governor's sister, who is a missionary in Ceylon, her daughters having been born there and being in America to be educated. The address of Colonel Vilas and the reply of Governor Cleveland will both be brief. The reception at the Fort Orange club this evening will be entirely informal. The mass meeting this evening promises to be one of the largest attendance ever seen in the capital city.

NATIONAL DEMOCRATIC COMMITTEE MEETING.

ALBANY, July 29.—The national democratic committee met at the Delavan house and was called to order by Secretary Prince, in the absence of Chairman Barnum. On motion of Miller of Nebraska Hon. John S. Barbour of Virginia was chosen chairman pro tem. The roll was called and all the states were represented except Connecticut, Maryland, Kentucky, Arizona, Nevada, Dakota, New Mexico, Utah and Wyoming. The proceedings of the meeting of July 9 were approved.

Dawson of South Carolina, on behalf of the committee on organization, made a report adopted. The committee decided not to publish it at present, the matter being left in abeyance with the chairman and secretary, they to decide what portions, if any, shall be given to the newspapers.

On motion of Smalley of Vermont Charles J. Canda of New York was elected treasurer.

On motion of Dawson of South Carolina Edwin B. Smith of New York was appointed stenographer.

On behalf of New York, on behalf of the committee on headquarters, reported progress and asked to continue to make a final report to the executive committee when it meets at New York.

The following was announced as the executive committee: Wm. H. Barnum, Connecticut, ex-officio chairman; Gorman, Maryland; M. W. Ransom, North Carolina; B. F. Jonas, Louisiana; Hubert O. Thompson, New York; Wm. A. Wallace, Pennsylvania; John S. Barbour, Virginia; W. F. Vilas, Wisconsin; Austin H. Brown, Indiana; M. M. Ham, Iowa; H. D. McHenry, Kentucky; P. H. Kelly, Minnesota; Bradley B. Smalley, Vermont; J. A. A. Sulloway, New Hampshire; F. W. Dawson, South Carolina; W. W. Armstrong, Ohio; Miles Ross, New Jersey; S. Corning Judd, Illinois; J. R. Barnaby, Rhode Island; John G. Prather, Missouri.

The committee adjourned to meet at the Delavan house at 7 o'clock, when it will accompany the notification committee.

THE MARCH TO THE MANSION.

ALBANY, July 29.—The rain, which had ceased at noon, set in again at about 5 o'clock. Despite the rain, Pearl street and Broadway were lined with people, standing under the shelter of awnings, about the headquarters of the phalanx. At 7 o'clock the phalanx, attired in dark suits, light hats and carrying canes. Preceded by the band, they marched through State street to Broadway to the Delavan house, where they were met with the committees. The streets and sidewalks were almost impassable. Here carriages to the number of forty were provided for the distinguished gentlemen composing the committee. At 8:30, headed by the band, the phalanx proceeded up Broadway followed by the committee in carriages. The procession turned up Clinton avenue into North Pearl street to Hudson avenue and the governor's residence, which was reached at 8:45 P. M. An immense concourse of people had assembled about the executive mansion, and the phalanx stationed about to prevent it jostling with the people and crowding upon the grounds surrounding the residence.

The guests were prompt in arriving, and when the members of the two committees were provided for there was very little extra space.

THE CEREMONY

The ceremony took place in the large handsome parlor of the mansion. The only attempt at ornamentation was in huge banks of flowers which rested upon the mantels of the parlor and library. The display was chief, but exceedingly impressive. The arrival of the committee in a body was the signal for some confusion in the small parlors. The members of the notification took positions on the side of the room and members of the national committee at the north. Space was reserved in the center.

Soon after the preparations were completed, the governor entered through the main hallway, ... He took his place in front of the flower banked mantel. The ladies of the party stood near the governor at his side. As he appeared in the doorway there was a general and spontaneous outburst of hand-clapping, which continued for several minutes. As soon as quiet was restored Colonel W. F. Vilas of Wisconsin, chairman of the democratic national convention and of the notification committee, stepped slightly forward and, addressing the governor in a clear tone and with marked emphasis, said:

ADDRESS OF VILAS

Grover Cleveland, Governor of the State of New York: These gentlemen, my associates here present, with others who are honored with an authority to utter, have been appointed by the national democratic convention, which recently assembled in Chicago, charged with the grateful duty of acquainting you formally, and in this solemn and conspicuous manner, with the result of its deliberations. It thus becomes their pleasure which the dignity and importance of the communication demands with the interesting proof of its deliberations, already known to you in the ordinary channels of news. By the [illegible] as the democratic people of the several states and territories of the republic, and standing under witness of the greatest body of freemen ever gathered to such a conference, foreshought of the election which the constitution imposes upon them to make during the present year, have nominated you to the people of the United States to be their president for the next term of that great office, and with grave consciousness of its exalted responsibilities have commanded their suffrages to invest you with its functions. Through this committee the convention transmits requirement it delivered, that you accept this nomination. The choice carries with it profound respect and admiration, but it has been in no matter the fruit of this sentiment.

A FEARLESS MAN WANTED

Traditional democracy seeks a president not in impulse for what the man is or reward for what he has done, but in a just expectation of what will be accomplished as a true servant of a free people, in his lawful trust. Always of a democratic party they consider the public exigency to be of transcendent importance. Laborious, sober in his administration as well as legislation, is urgently necessary to the prosperity and honor of the republic, and a competent chief magistrate has demands, temper and power. They have believed with attention your execution of the public trusts you have held especially of that with which you are now so honorably invested. They feel entire reliance on the assurances of the service which may be expected for the benefit of the nation by the evidence derived from the service you have performed for the state of New York. They feel the electors to such proof of character and competence, to justify their confidence that in national affairs as heretofore in state, public business will be administered with commensurate intelligence and ability, with single-hearted honesty and fidelity, with a resolute and daring fearlessness which no faction, no combination, no power of wealth, no mere clamor, can dismay or qualify in spirit of its aims; and invoking the benediction of the Divine Creator of man we challenge from the sovereign will of this nation his words in commendation of this ratification of our choice, "well done, thou good and faithful servant; thou hast been faithful over a few things, I will make thee ruler over many things."

In further fulfillment of our duty the secretary will now present a written communication, signed by the committee.

Vilas was several times interrupted by applause. At the close of his remarks Nicholas M. Bell, of Missouri, secretary of the committee, read the following formal address prepared by the committee.

THE COMMITTEE'S ADDRESS.

NEW YORK CITY, July 28, 1884.

To the Hon. Grover Cleveland of New York—Sir:—In accordance with a custom befitting the nature of the communication the undersigned, delegates of the states and territories of the Union, were appointed a committee by the national democratic convention, which assembled at Chicago on the 8th day of the present month, to perform the pleasant office of informing you of your nomination as the candidate of the democratic party in the ensuing election for the office of president of the United States. A written expression of the principles upon which the democrats go before the people with the hope of establishing their policy in them in government, was adopted by the convention and an engrossed copy is herewith enclosed in connection with this communication, by your consideration. We trust the general sentiments of your judgment will follow an examination of this expression of opinion and policy, and that the platform of our industry now made we invite the acceptance of the exalted leadership to which you have been chosen.

The selection of the president is an event of vast importance to the people of America. Prosperity, happiness and peace, liberty even may be dependent upon the wise selection. Your nomination is an assurance that the democracy believe you are fitted... We assure you that in the various respects this confidence was well as consistent, and will have the hearty and cordial support of the friends of the cause you will represent, and in the coming election of the [illegible] [illegible] which was the fruit of the [illegible] ... of the party in the [illegible] ... honor and [illegible].

We have the honor to be, with great respect,

W. F. VILAS, Chairman, President.
N. M. BELL, Secretary.

GOVERNOR CLEVELAND'S RESPONSE

Governor Cleveland stood meanwhile ... and replied as follows:

Mr. Chairman and Gentlemen of the Committee—Your formal announcement does not, of course, convey the first information of the result of the convention lately held by the democracy of the nation, and yet when, as I listen to your message, I see about me representatives from all parts of the land of the great party which, claiming to be the party of the people, asks them to intrust to it the administration of their government, and when I consider, under the influence of the stern reality which the present surroundings create, that I have been chosen to represent the plans, purposes and the policy of the democratic party, I am profoundly impressed by the solemnity of the occasion and by the responsibility of my position. Though I gratefully appreciate it, I do not at this moment congratulate myself upon the distinguished honor which has been conferred upon me, because my mind is full of an anxious desire to perform well the part which has been assigned to me. Nor do I at this moment forget that the rights and interests of more than 50,000,000 of my fellow citizens are involved in our efforts to gain democratic supremacy. This reflection presents to my mind the consideration which, more than all others, gives to the action of my party in convention assembled a most sober and serious aspect. The party and its representatives which ask to be intrusted, at the hands of the people, with the keeping of all that concerns their welfare and their safety, should only ask it with the full appreciation of the sacredness of the trust, and with a firm resolve to administer it faithfully and well.

WHY HE IS A DEMOCRAT.

I am a democrat because I believe this truth lies at the foundation of democracy. I have kept the faith because I believed if rightly and fairly administered and applied, democratic doctrines and measures will insure the happiness, contentment and prosperity of the people. If in the contest upon which we now enter we steadfastly hold to the underlying principles of our party creed, and at all times keep in view the people's good, we shall be strong because we are true to ourselves and because the plain and independent voters of the land will seek by their suffrages to compass their relief from party tyranny, where there should be submission to the popular will and their protection from party corruption, where there should be devotion to the people's interest. These thoughts lend a consecration to our cause, and we go forth not merely to gain a partisan advantage, but pledged to give to those who trust us the utmost benefits and honest administration of national affairs. No higher purpose or motive can stimulate us to supreme effort or urge us to continuous and earnest labor and effective party organization. Let us not fail in this, and we may confidently hope to reap the full reward of patriots' services well performed.

I have thus called to mind some simple truths, and trite though they are, it seems to me we will do well at this time to keep them in mind. I shall soon, I hope, signify in the usual formal manner my acceptance of the nomination which has been tendered to me. In the meantime I gladly greet you all, as co-workers in a noble cause.

AT THE FORT ORANGE.

The governor spoke extemporaneously, and not without evidence of deep earnestness and feeling. The address was not only a model of thought, but was delivered with rare grace and effect. The congratulations that were showered upon him by the many distinguished leaders of the party at the close of the ceremonies were sincere and hearty.

After some time spent in social interchanges the doors of the dining room were swung open, and refreshments then partaken of.

Among those present besides the members of the national and notification committees nearly all of whom were in attendance were ex-Speaker Samuel J. Randall of Pennsylvania, Congressman Perry Belmont, Judge Abbott of Boston, and E. P. Tilly of Boston.

NATIONAL LABOR COMMITTEE

It Decides that the Workingmen do not Need a Candidate this Year.

CHICAGO, July 29.—At a meeting of the national labor committee last night, the following resolutions were adopted:

We hereby form and adopt the demands formulated and presented to the national labor party of the state of New York, which were adopted at the conference and incorporated in the platform by the democratic party of that state in 1882, as follows:

We affirm the policy always maintained by the democratic party, that of first importance, the labor should be made free, healthful and secure of just remuneration; that convict labor should not come into competition with the industry of law abiding citizens, that labor of children should be so regulated with such safeguards as their health and rights of education, and their future as useful members of the community demand; that work shops, whether large or small, shall be under such sanitary restrictions as will induce the health and comfort of those employed, and protect all against overwhelming labor and surroundings; that labor shall have the same right as capital to combine for its own protection, and that the legislation which may be necessary, or which enables the powerful to oppress the weak, shall be repealed. And to protect the honor and labor we recommend the codification of statutes and information respecting the improvements, conditions and abuses of the various branches of industry.

ALL DEMANDS DULY REGARDED.

To these demands the reforms made by the working men of New York have been since added through the use epitome and endorsement by the governor of the state of New York in the following measures: Establishing a labor bureau of statistics; prohibiting the manufacture of clothing in tenement houses; abolishing the making of contracts for convict labor; laboring men prevented creditors in assignments of employers; prohibiting child contract labor; providing for a commission to examine the sanitary condition of tenement houses. These and others which are commended to the people of the United States and are hereby declared the principles of labor in this country.

WHEREAS, The interests of labor, last we when the principles of labor rest upon the solid foundation of secured rights and prosperity are presented and urged as issues to popular representative bodies having control of legislation, therefore be it

Resolved, That it is not the duty of the working men to present candidates for president and vice president, but that it is their sacred duty and obligation to organize for the purpose of securing, as members of state and national legislation, earnest and faithful representatives of labor. Therefore, be it

Resolved, That we make no nominations for the office of president or vice president but leave to all our members a free choice, and that we do hereby adjourn the meeting of the national labor convention to July 20th, 1885, in the city of Chicago.

WILSON J. WOOLF, Chairman.
William A. A. Carsey, Secretary.

DOYLE FAMILIES ENDORSED

The following was subsequently adopted by the committee:

WHEREAS, The national labor party was duly organized at Philadelphia January 12, 1884, for the purpose of effecting a wise and judicious action by the national leaders of labor of the country, [illegible] party to the intelligence of labor and at it in majority, and to its influence, as far as possible, their adoption of our principles; and

WHEREAS, Our platform and principles were submitted to the consideration of the national conventions of the respective political parties and duly adopted; and

WHEREAS, Our methods of procedure require us, as our principles advocated by the existing political conventions to notify our members of that intent in such case [illegible] each member to consult his own desire to properly preserve; therefore

Resolved, That we accept the invitations and endorsement of our principles by the national conventions of the democratic and republican parties as progressive and beneficial to American industry.

IRISH AMERICANS.

They Hold a Mass Meeting—Speeches Made in Favor of Blaine and Logan.

NEW YORK, July 29.—Chickering hall was crowded last night at a meeting of Irish born citizens who favor the election of Blaine and Logan.

Austin E. Ford was chosen chairman. He said it was strange to see 3000 Irish Americans assembled in New York city to indorse the nominee of the republican party.

The first speaker was Rev. George W. Pepper of Ohio. He said they came to help to defeat the candidate supported by the London Times. For centuries parties had always been opposed by the English government, whose sympathies were with our cause. It was the party of personal liberty and the protection of labor. Free trade principles were contrary to everything the Irish loved. He predicted that in November next Governor Cleveland would be buried so deep that the sound of Gabriel's trumpet would never reach him. Not one in ten Irishmen in Ohio would vote for Cleveland. The Catholics there were all opposed to him.

Henry Carey Baird was the next speaker. He said the only way to down England was to cripple her industries, and this could be done by keeping the republican party in power.

Judge Brannan of Iowa said he had come 1400 miles to be present at the meeting. He denied that he had said for forty years that because they were Irish they must vote the democratic ticket. Iowa was undertake to say they would vote the republican ticket for that same reason.

The other speakers were P. T. Barry of Illinois and Captain O'Meagher Condon of Washington. A circular was distributed setting forth the reason why Cleveland should not be supported by the working men.

Unusual interest, particularly on the Pacific slope, has been manifested in the selection of officers of the civil government in Alaska. CATTLE EPIDEMIC FEARED.

Texas Fever Makes its Appearance in a Number of Eastern Herds.

TOPEKA, Kansas, July 29.—N. A. Adams of Manhattan, purchased 200 head of Colorado steers at Kansas City last week, and thirty head of them have died with Spanish or Texas fever. One car load was stopped here and out of that six have died since. The others were taken to Manhattan, and are quarantined in shipping pens there. Up to 3 o'clock yesterday afternoon 35 head had died. The people and especially stock men, are greatly excited. In answer to a telegram, Governor Glick has sent State Veterinary Surgeon Holcomb to investigate the trouble.

CHICAGO, July 29.—The arrival of a number of sick cattle having been reported at the Union stock yards in this city an examination was made by a number of veterinary surgeons this morning who are not yet ready to submit an official report. The fact is, however, that they have agreed that the disease is Texas fever, superinduced by drinking water strongly impregnated with alkali. The cattle have been securely quarantined and isolated. Those of the lot that are unaffected are to be slaughtered, subject to the inspection of the health department. Those that are unable to recover are being shot, and those that aren't ready will be held in quarantine for further developments.

MANY CATTLE DEAD AND DYING.

BURLINGTON, Ia., July 29.—Sixteen carloads of cattle from Indian territory arrived at the Chicago and Burlington yards here on last night. Nineteen head died in the road from Kansas City, and it was believed the whole lot was infected with Texas fever. All that could stand up, twelve carloads, were forwarded to Chicago and the remainder, seventy-two in number, were tied Monday morning. Andy Jacobs of Kansas City in charge of the cattle, denied that they had Texas fever and said they were poisoned by eating loco weeds on the trail, but L. C. Tiffany, veterinary surgeon from Jacksonville, pronounced the disease Texas fever.

Another train consisting of twelve cars, containing 240 head of cattle, arrived this morning. They were branded the same as the herd which was found to be diseased yesterday, and are from southwestern Kansas. Fifteen were found dead in the cars fifty-five had been thrown out dead on the way and a great many others were sick and had been trampled upon. Dr. Lawson, state veterinarian, and Dr. DeWolf, city health commissioner, declared the trouble is murrain. The entire herd including those of yesterday, was ordered killed, making about 480 head in all. Officials declare the cattle were evidently diseased before shipment and from all that can be learned the entire herd was in the Kansas City stock yards thirty days before shipment to this city. In view of this fact the cattle were thoroughly quarantined before killing. It is not believed the trouble, whether it is Texas fever or bloody murrain, will extend any farther.

UNDOUBTEDLY TEXAS FEVER.

CHICAGO, July 29.—The state veterinarian has not made his final report, but he asserts in substance that his investigations have developed the fact that these cattle are afflicted with splenic or Texas fever. Health Commissioner DeWolf of this city concurs in this opinion and exhibits in his office the spleens and kidneys of some of the cattle which died, and they are found to exhibit strongly marked signs of fever. On the other hand many stock men and others say they are familiar with Texas fever do not believe it is that disease. They assert that in all cases of Texas fever the animal's entrails in very bad, and the cause of this disease is some type of sickness from drinking alkali water, and that death in this instance resulted from either of these as the [illegible] being entirely natural. They profess to believe that death was a [illegible] at the conclusion of the [illegible] with water after long thirsting and being overheated.

FROM INDIAN TERRITORY.

These cattle belong to Fitzler & Oter, of Kansas City, and were brought in from their ranch in Indian territory. The entire number received is 1000 of which arrived this morning. Of this number 182 have died. Those in... have [illegible] their agony revealed the diseases of Texas fever. Living animals are quarantined, and the room in which they lie will be scrubbed and used for hogs. The health department [illegible] large [illegible] of the health department is prohibitive to say that the meat of these animals will be allowed to go into the market, while there is not the least danger. He has given orders that all of the infected members of the herd be subject to inspection by the department, after slaughter a small number were sold and slaughtered to-day, but as a matter of precaution the meat was not permitted to be put on the market. It is said here that twenty-five head of these cattle were sold at Kansas City.

AT MANHATTAN, KANSAS

KANSAS CITY, July 29.—Dr. Manhattan a special says: There have been fifteen additional deaths from Texas fever in the shipment of cattle received here from Kansas City. The cattle had been driven from Caldwell to Caldwell crossing the Texas trail on the way from Caldwell. They were bought in Kansas City and it is said where they were shipped here. Sickness of Mr. Adams that a perfect well with the way to this place. The expected to-night. Experts here do not anticipate an epidemic, believing the disease is not communicable except through cattle.

THE DISEASE TEXAS FEVER.

KANSAS CITY, Mo., July 29.—Confirming the report of Texas cattle fever in the stock yards of this state that a consignment of cattle was received here from Indian territory which were afflicted with Spanish or Texas fever, though it was not known at the time. A portion of the herd went to Manhattan, Kansas, the remainder to Chicago. The yards have been thoroughly disinfected. As far as known there are no other cases of the disease here.

NO TEXAS FEVER AT KANSAS CITY.

KANSAS CITY, July 29.—After a careful investigation the Live Stock Indicator makes the following statement: There has not been and is not any Texas fever among cattle at this point or in this neighborhood. Cattle shipped from here, to which sickness in Texas fever had been attributed, passed through the yards without being exhibited any symptoms of the disease, and were infected by contact with through Texas cattle in Indian territory.

OBITUARY.

Died at Rose Farm, near Oregon City, July 28, Mrs. M. A. L. O. Holmes, aged 70 years, 6 months and 16 days.

Mrs. Holmes came with her husband and children to Oregon in 1843, and took up her residence at Rose Farm in February, 1844, thus spending more than forty years on the place where she died. She was greatly beloved by all who knew her. For years her home was a general place of resort for all newcomers to these western wilds, and numbers there are to-day who recall with pleasure and gratitude the warm welcome and the good cheer of her hospitable home. There the poor and unfortunate were met with sympathy and help, and strangers were made to feel as friends. She was a fond and unselfish mother, devoted to her children, and ever seeking their welfare and happiness. Her ministry was one of love, and the sweet influence of her life will linger like a fragrant memory in the hearts of the wide circle of friends that mourn her death.

Two daughters and a son survive her. May the rich comforts of God's grace be theirs in their deep sorrow and loneliness.

LONDON, July 29.—Special.—Moncure D. Conway delivered his farewell address to his congregation yesterday. He said in a foreign country he had hoped to establish what he believed to be the true medium between Romanism and Protestantism. In this undertaking he admitted he had been disappointed. He had slowly become convinced that the true church of England had little or nothing to hope from England. He believed that it was to America that thoughtful men must look for true religious development. NEWS OF THE NORTHWEST.

Western Oregon.

The ladies of W. C. T. U. of Corvallis opened on Saturday, the 19th, their new building (a "restaurant and free library" housing that the latter may be supported by the former. The two rooms, thrown together by sliding doors, seated upwards of a hundred people at their opening entertainment. This consisted of readings from Tennyson and Dickens, some four part songs and solos, and short speeches from several friends of the institution. There is a nucleus of a good library, to which the ladies of the W. C. T. U. would gladly welcome some additions should any friends possess good readable books for which they have no space on their shelves, let them remember they will be gratefully accepted at Corvallis. Parcels sent to the care of Mrs. H. E. Hines of Portland will be duly forwarded.

Washington Territory.

Walla Walla Statesman: Friday evening at about 8 o'clock while the rain, thunder and lightning were having a picnic, the lightning disagreeing with the other elements, struck the grain field of Messrs. Flippo & Barnhart, about five miles northwest of Waitsburg, and by 10 o'clock had burned 130 acres of wheat and barley. The owners were preparing to harvest the crop which was unusually good, and this will be a great loss to them. Mr. Barnhart especially has had bad luck, as his horses have been very sick all summer, and just as he is ready to use them he loses his crop.

Saturday morning an old man named William Dougherty, who recently came from California got on a spree at Walla Walla. While in that condition he had a quarrel with a young man named Thomas Morrissey and stabbed the latter several times about the throat. Morrissey's injuries are very severe but not necessarily fatal. Dougherty is in custody. Morrissey now lies at the hospital.

"Such a figure! Such grace and ease! I never saw a woman before that I really could love."

"Do you think so?" observed a middle-aged gentleman who sat next to him.

"Indeed I do. She has captivated me. I would give a thousand dollars to meet her."

"You can meet her for less than that. I'll introduce you if you like."

"You? You would earn my everlasting gratitude. Do you know her well?"

"I ought to. She's my grandmother."

How a Portland Man was Robbed in San Francisco.

AUTHORITIES GUARDING AGAINST EPIDEMICS.

A New Market for Columbia River Salmon—Puget Sound Vessels Ashore—British Columbia Happenings, Etc.

How Hughes was Robbed.

SAN FRANCISCO, July 29.—[Special.]—The methods by which Hughes, who recently came here from Portland, was swindled out of his snug fortune of several thousand dollars were of the most transparent character and such as could be played upon only a very stupid man. Louis Smith, who loafed about his saloon at Portland got him to trust $600 in his hands, ostensibly for the purpose of purchasing lots in a new town on Coquille bay. He pocketed the money and still Hughes suspected not that he was being robbed. Smith's next enterprise was to steal outright $6450 from Hughes' safe, and he then persuaded his victim that he could do better in San Francisco and all the movable property, to the value of $1200 was shipped to this city. The shipping receipts "for convenience," were made out in Smith's name. The latter succeeded in getting away from here with about $3,500, and his whereabouts are now unknown. An accomplice in this game of robbery, named Bennethian, also from Portland, has been lodged in the city prison.

The Oceanic's Coolie Passengers.

[Special.]—Among the passengers that arrived on the Oceanic Sunday were nearly 100 Chinese women, all of whom, it is presumed, came over here for immoral purposes. About half of them propose to land here, while the rest will go to other coast ports and by some means finally make their way back to this city again. This is the first arrival of Chinese since the amendment of the restriction act. Without having fully looked into the cases of all the Chinese on the Oceanic Surveyor Morton said yesterday that there appeared to be forty-three persons manifestly not entitled to come ashore. These were holders of Chinese consular certificates, one Canton certificate, and holders of what the purser of the vessel on his manifest, returned as "other evidence." The latter, eighteen in number, are probably of the class whose return passage money is guaranteed, should they not succeed in getting ashore.

Personal.

[Special.]—Billy Arnes came down on the steamer which arrived yesterday. He will go to Sacramento, where his horses are to-morrow. He said to-day that he might remain down three months, and that he might return in ten days.

Colonel John Adair and wife are at the Palace. They will leave in a day or two for one of the watering places.

William S. Ladd is at the Palace.

William Merrill of Astoria is at the Occidental. He will remain in the city a month.

Mrs. O. Donnell and daughter and Miss Brackett of Walla Walla are at the Russ.

F. Dekum and A. J. Knapp of Portland are in the city and will remain two weeks.

Guarding the City.

[Special.]—The board of health, the city physician and the chief of police are organizing a systematic plan for placing the city in a good sanitary condition. The plan will include the city from house to house and will be put to force the ordinances which require all premises clean. The city sewers are being inspected and arrangements made for cleansing them. The city has not been thoroughly cleaned up for eight years.

At a meeting of the board of health to-day it was decided as a precaution against an invasion of the cholera or yellow fever, to make a house to house inspection of the sanitary condition of the city. It was also resolved that ships bringing to this port patients affected with contagious or infectious diseases shall be liable for the maintenance of them while at the hospital.

Will Build a Brick Wigwam.

Regarding the refusal of the board of supervisors last night to permission to erect a wigwam for the use of the Blaine invincibles the Post this afternoon says that a meeting will be held this evening to consider the proposition of erecting a brick building instead of the wooden one it was proposed to build. To a brick structure the supervisors can not, under the fire limit ordinance, make objection. A subscription list will be opened to cover the cost of the building, to the event of a decision being reached to build it.

A New Salmon Market.

[Special.]—This city is getting a good deal of business from Mexico, as the result of through rail connection recently opened. The articles most in demand from this market are wine, fruit and canned goods, particularly canned salmon. Salmon is esteemed a great luxury in Mexico, and the consumption promises to be large. Columbia river brands are of course preferred.

Studying the Chinese Question.

[Special.]—An official commission from the Canadian parliament is in the city studying the practical aspects of the Chinese question. The commissioners, who it is said, are not favorably impressed with what they have seen in Chinatown, will leave next week for British Columbia, further to investigate the Chinese question.

British Ship Wrecked.

The merchants' exchange reports the loss off Valparaiso of the British ship Arabia Bar, from Dundee for San Francisco. The vessel is a total loss. The crew were saved.

Yreka Stage Robbed.

REDDING, July 29.—The Yreka stage was robbed about 1 o'clock this morning, near Bass station, by one man who demanded the express box. The robber did not take the mail. It is thought the express box contained but little treasure.

MONTANA.

Montana Stock Growers' Association.

HELENA, July 29.—The Montana Stock Growers' association has been in session, its first, the past two days, and adjourned this afternoon. Officers were elected as follows: President, Granville Stuart; vice president, B. F. Potts; treasurer, J. H. Woolman; secretary, R. B. Harrison. Members were present from all parts of the territory, representing cattle herds aggregating over half a million head. In view of the ravages of stock thieves, the association decided to use its influence for the election of members of the legislature who will work for the passage of a law to afford stock interests better protection from thieves. The association will urge the reduction of Indian reservations in Montana, which comprise 20,000,000 acres of grazing land or about 6000 to each Indian. They indignantly deny the statement current in Manitoba, Dominion of Canada, and throughout the United States, that cattle herds in Montana are affected with foot and mouth disease. The United States commissioner of agriculture and officials of other countries are invited to inquire into the report. There is no disease of any kind among Montana cattle.

WEDNESDAY MORNING JULY 30 1884

THE BOLTERS OUTBOLTED

When the Irish "get their Irish up" it takes but a short time to tell what they will do and just now it looks very much as though those who live in New York have fully made up their minds to join heart, soul and votes in the defeat of Cleveland. They cannot wait for Tammany or any other deliberative body but "pitch in" hold a meeting on their own account, and to the number of 3000 announce that they will support Blaine and Logan. In THE OREGONIAN of yesterday extracts from several leading Irish papers were printed, to show why Irishmen cannot consistently vote either for Cleveland or against Blaine. From the size of this meeting it would seem that the reasons are cogent and quickly understood. It was a meeting that makes the recent one held by the bolters seem quite insignificant in point of numbers, and numbers are what count in a presidential year. It was a meeting which surprised the New York republicans, who, while expecting the vote indicated by it, were not looking for an expression so hearty thus early in the campaign. While Kelly is at Saratoga as a target for those who are given to guessing the other Irishmen are going in a stampede over to Blaine. So in Massachusetts, the rank and file are not waiting for Butler. The sentiment in favor of Blaine and Logan which has been noted among a large class of young Irish-Americans in Lawrence who have hitherto voted the democratic ticket culminated one night last week in the formation from among the Irish-American voters in ward six of that city of a Blaine and Logan club. Seventy men signed the roll pledging themselves to vote and labor for the election of Blaine and Logan. The pledge extends no farther than the presidential ticket. The organization embraces a large part of the Irish-American residents of the ward who are held in esteem for their intelligence and worth. The leaders expect to increase their club to a membership of a hundred or over. The organization in Ward Six, one of the smallest will be followed by similar organizations in the other wards, which assures the republican ticket, in the opinion of good judges, a majority in Lawrence where General Butler's plurality last year was nearly 1300 and that of the democratic candidate for lieutenant governor was 1000. In Ohio, according to good authority, not one Irishman in ten will vote the democratic presidential ticket this year and from all the states where the Irish are a distinct power in politics such information comes as can lead to but one conclusion that these voters will not support Cleveland and will vote for the republican nominee. It is no longer a bid for "leaders" the people are very well informed as to what and who they want and this Chickering hall meeting gave evidence that the Irish vote will most certainly cut an important figure in New York, which is the important political point. However much we would prefer to see no lines of nationality drawn among parties in this country, we must speak of these matters as we find them. The Irish are proud of the fact that their country has always been famous for furnishing politicians of the kind to stand up for the rights of the whole and if they want to come under the Blaine banner in New York specifically as the Irish vote they will be as welcome and as worthy as were any of the brave Irish regiments that marched from New York to the front more than twenty years ago.

Now Governor Cleveland knows officially that he has been nominated by the democrats for president. As the Duke of Wellington said at the battle of Waterloo "Now that Terrance O'Dowd is in his place let the fighting begin."

A Washington correspondent has been kind enough to look up the defalcations under the last six years of democratic rule in the navy department alone. Thomas A Hendricks of Indiana has so much to say about the $63,000 discrepancy recently discovered and set right by republicans that we give this as an offset since he insists upon making a party matter of it. The time covered is that extending from 18?4 to 1860.

This exposition taken along with the recent showing up of the methods Hendricks resorted to when commissioner of the general land office to raise money from the clerks for political purposes, will enlighten people more generally and particularly than he intended when he began the lesson in his Indianapolis speech.

President Arthur has far surpassed all his predecessors in the matter of entertaining at the White house, and has set an example of excellence and elegance in table appointments which will be difficult for his successors to follow without going pretty deep into their pockets, says the Washington *Star* which describes some of the more elaborate entertainments. A French chef presides over the kitchen, and receives a salary of $1800. Last winter the president gave a series of state dinners which excelled any similar occasion at the White house. Besides giving the customary diplomatic cabinet and judicial dinners all the senators and representatives in congress, with their wives were invited to sit at his table. Thus it was that nine expensive and elegant repasts were served in the state dining room, the guests in each instance numbering from thirty six to fifty four. They cost at least $10 per plate. In nearly every instance there were fifty guests at the table so that the actual cost of the nine dinners was about $5,000. This was not the extent of the president's hospitality, however, for there were quite a number of private dinners given during the season to prominent persons or personal friends.

The president has begun his vacation travels without settling the question as to who shall be chief of the national bureau of labor statistics. It has been definitely settled that Mr John Jarrett of Pittsburg will not be permitted to assume the duties. President Arthur has become convinced that Mr Jarrett referred to him in indecorous and insulting language in a speech at Pittsburg last winter. A number of prominent men are mentioned as candidates for the place, among them ex-Mayor Powderly of Scranton, Pa, Miles Humphreys of Pittsburg, an ex member of the Pennsylvania legislature, John Fehrenbach of Cincinnati, ex Assemblyman David Healey of New York, and Col R J Hinton, a Washington journalist. One Mr. Haldeman of Illinois has also been mentioned as sure to get the appointment but no such man can be found. Mr Jarrett represented the uncivil service sentiment of the country and the president who is a civil service man very properly stamped him as disqualified.

Some kind democrat ought to catch J H Murphy of Iowa and tie him up. He talks about the probability of a strong temperance vote in his state! If temperance votes could have been made to avail he would never have been elected to congress from the second district, and he knows it. The very fact that his opponent made his temperance principles an issue is what gave Murphy his majority. If there is a state in the Union where the voters are tired of temperance as a political issue it is Iowa. Murphy is pronouncedly anti-temperance, and that accounts for the presence in congress of the wily old democrat.

TRADE COMBINATIONS

The Diamond Match Company which represents thirty factories in the eastern states and a capital of more than two million dollars and has controlled the match trade in this country, vigorously opposed the repeal of the internal revenue law taxing their product but without success. The tax was removed July 1 1883 and the monopoly was broken. The price of matches fell from $1 10 to $1 per gross. Foreign matches which were kept out of the country by the internal revenue law and the customs tax, are now imported paying 35 per cent duty. Not long ago this company denied a shareholder access to its books. In explanation of this demand and refusal it is stated that the Diamond Match Company was organized by a combination of a number of match companies which took shares in the consolidated stock. Many of the companies entered into bonds not to continue the business. The agreement was that they should close their factories and receive in return in proportion to the value of the business they were doing shares in the consolidated company the profits of which were to be divided among the shareholders. Under this consolidation of the principal match factories the Diamond Match Company obtained a monopoly of the match business in the United States by freezing out the smaller manufacturers.

So long as the monopoly was protected by the revenue law which compelled importers to break packages in bonded warehouses and place stamps upon every box and then replace them for transportation, and besides pay more for stamps its profits were large. But great as the dividends were it is claimed that they were much less than those really earned and hence this suit for access to the books of the company and the call for an accounting.

This is a typical case which through quarrels among shareholders has come before the public view. Under the protection of the law it has made profits which it dare not publish because if they were generally understood it could have no hope of securing more "fostering care" from the government. But there is a multitude of similar cases of combination to keep up prices and monopolize not only manufactures but products. In a recent article on "The Lords of Industry" in the *North American Review* to which we have before briefly referred the writer Mr Lloyd shows that there are trade combinations to the detriment of the consumer in almost every available direction. There is at the west a combination of manufacturers of furniture which has given them over a large area a monopoly of the business. The men who make burial cases have formed a close corporation, known as "The National Burial Case Association." It held its first national convention at Chicago last year. Combinations to break down competition have been formed by the western millers, coppersmiths, makers of sewer pipe, lamps, pottery, hoop-iron, shot, rivets, sugar, glucose, candy, starch, vapor stoves, quinine, harvesting machinery, pins, brass tubing, wire cloth, wire fencing, etc. The newest combination is that of 8000 ovens of the coke burners in the Connellsville district. "In a society," says Mr Lloyd, "which has the wherewithal to cover, fatten and cheer every one, lords of industry are acquiring the power to pool the profits of scarcity and to decree famine. They cannot stop the brook that runs the mill but they can chain the wheel. They cannot hide the coal mine but they can close the shaft three days in the week, which means three days of idleness for the workman and three days pay instead of six." Not all of these combinations are successful nor are the object ones to some of them so great or so grave as to some others as, for instance, the thirty million dollar steel combination, which made for years such enormous profits from steel rails that it could afford the owners of the Vulcan mills at St Louis $400,000 a year to close their works and turn off their men. It was not until this year that the anthracite coal kings got control of the market and now prices are fixed by them at the east and at the west by the Western Anthracite Coal Association. "They must transport and sell their own coal. According to Mr Lloyd" they are obliterating the other mine owners, and the coal retailers are sinking to the status of mere agents of the combination to the injury of consumers who are taxed heavily to pay the six great companies who control the market and can make almost any profits they may choose."

The effort which the Diamond Match Company is now making to procure an increase of the import tax upon matches is an acknowledgment of the fact that such combinations as these are only possible under a high tariff which prevents foreign competition and gives the monopolists the exclusive control of the market. In the article referred to Mr Lloyd cites the evidence of Mr Franklin B Gowen in defending and justifying by the example of others before a committee of the Pennsylvania legislature the combination en erected into in that state by the coal operators and railroads to force up and maintain at high figures the price of coal which is very suggestive of the many ways in which consumers may be fleeced and the working classes, by the regulation of their labor, the shutting down of mills, the closing of factories and the blowing out of furnaces, brought into subjection by these "lords of trade." "Every pound of rope" said Mr Gowen "every keg of nails, every screw, wrench, hinge, fire brick, piece of terra cotta, pane of glass, all white lead, hose, belting, files, etc are bought at a scale of prices fixed by the manufacturers." There may be an exaggeration in this because the statement admits of exceptions but there is much truth in it also. And the anxiety of monopolies like the Diamond Match Company for the continuance and increase of tariff duties plainly shows what they regard as the source of their wealth and power.

The members of the Young Republican Club of Brooklyn held a meeting soon after the republican nomination was made and resolved to take plenty of time and investigate the charges made against him before either supporting or opposing Blaine. The young men were about evenly divided on the right of this resolution. Now the report has been made and it declares that the committee finds nothing in the charges. So the club is going happily along for Blaine. It has a membership of nearly three thousand.

The city of Louisville now enjoys three kinds of time. By act of the municipal council the city clock has been set forward from standard to solar time; the mayor keeps his watch with the railroad clocks and a compromising or independent party has adopted the three handed watch system and so it is both times. In addition to this there is another kind of time there — the time people have in keeping appointments.

Another of Governor Cleveland's Vetoes
Boston Journal July 1

Attention has been called to two of the vetoes of Governor Cleveland which seriously affected the interests of people of limited incomes and protected corporations in their exactions. These would seem to be sufficient to prove that Governor Cleveland is either unmindful of the welfare of the masses, or he is lacking in the intelligence necessary to look out for the interests of the people at large. But a still more damaging veto has been brought to light — the veto of a bill passed by the legislature which was designed to give laborers at the hands a lien upon buildings in the construction of which they are employed. There is not a mechanic or even a hod carrier in the country who does not understand the value of such a law to him as it is of thousands of men who are employed by contractors upon buildings of all kinds. If the contractor is shown a neglect to pay the mechanics and the laborers in his employ, they have no special remedy without a law which will give them a first claim upon the building for their wages. In all the states such laws afford protection to all kinds of laborers. They are just laws, because the man who sells labor actually sells it to obtain the necessaries of life, whilst he who owns capital or material are not joined to be in both circumstances. In this commonwealth and in all the New England states the rights of labor in this respect are fully protected by the laws. In New York they are not. The mechanics of New York asked for this fair protection and the legislature enacted a bill which had it become a law, would have secured them their rights. It did not become a law because Governor Cleveland vetoed the bill. In consequence of his action thousands of mechanics and laborers in New York have no remedy if a contractor fails or absconds without paying them. This is the fact. Perhaps some champion of the democratic candidate will undertake the task of explaining his most extraordinary conduct in this matter.

THE LETTER CARRIER

His Lot is Not as Happy a One as Some People Imagine
Chicago Mail

Perhaps you think it's a bed of roses, remarked a letter carrier yesterday referring to his position.

The reporter confessed ignorance on the subject.

If it is continued the boy in gray somewhat gloomily all I have to say is that every rose in it is in keeping with the general rule — it has its thorns. I have to be at the office at 6 45 sharp so as to be ready to start out at 8 o'clock or 8 05 at the latest. If I am five minutes late unless I have a very good excuse a substitute is put on in my place and I lose half a day's wages. I receive $800 per year and consequently lose $1 10. With the man who receives $1000 per year it amounts to $1 ? and with the man who receive $1 ?0 well we don't say anything about them they are not often late or away because they haven't enough pay to stand it. As you probably know we get $1 0? for the first year service $?00 for the second and $1 00 for the third — it stands far as we go. We get there on an average at about 5 o'clock. A carrier's business route makes six trips a day on a house route four.

Which is the more difficult?

A business route is decidedly for one has so many more stairs to climb. Mine is a business route and I deliver on an average at least 1 500 mail pieces a day to do which I am obliged to walk fully fifteen miles. This I must do of course in all sorts of weather whether the thermometer is way up in the nineties or below zero. A carrier on a house route can only deliver between 800 and 1 000 pieces a day the distance being so much greater. By means of course he will pass a dozen houses without delivering a single letter, and his progress is necessarily slower.

If a man is sick he loses his pay entirely that is for the time he is away. A house route ($700 man) loses $1 cents for each trip he is away — you can figure what the others lose yours if.

Do you have many annoyances while going your rounds?

A great many. One is frequently stopped with the question "Anything for me to day" and is expected to unbuckle his bundle and run over all his letters for the questioner. Then a nice lady will say "Post an will you please mail these letters at the corner for me?" or "Will you stamp these letters when you get to the office here's the money for the stamps." Of course I don't mind doing a lady a favor occasionally especially if she is young and good looking but you have no idea how much extra work these things make for us in the aggregate. Why I've often gone back to the office more heavily laden than when I started out my bag just filled with letters to be mailed. One would imagine we were private servants as well as public ones. One fellow in business on one of the streets always asks for letters whenever he sees me even if I have just left his office. He won't take no for an answer and insists upon my running over my bundles before he is satisfied. I am obliged to remember the names of many 6000 people on my route but you would imagine from the questions people ask me, that I was a traveling directory for I am frequently asked where Mr So and So or Miss So and So can be found — people that I have never heard of. Taken all in all as perhaps you can imagine the position is one of many trials though it is true that there are many applications for every vacancy.

The Dining Car "Charlton"
Chicago Inter Ocean

The Chicago and Alton Railroad Company is a firm believer in the principle that dining cars can be made paying investments and more accommodating to the traveler than eating houses along the line of the road. Acting upon this principle the company has had constructed from time to time some of the finest dining cars in use in America. Yesterday was celebrated the inauguration of the newest and most complete of the dining cars of this road. In honor of the general passenger agent of the road the car has been named the "Charlton," a name that wears well. The car is without doubt the most attractive of the many that have thus far been submitted to reportorial inspection. It is seventy three feet long and one and one half inches wider than the ordinary cars. The great aim has been to secure all the comfort possible. On that account the tables are large, the windows wide, the aisles commodious, the seats spacious and the kitchen capacious. The coloring is dark on the exterior and light in the interior, the blending of colors and the presentation of contrasts being so skillfully done that a most artistic and pleasing effect is produced. Everything is agreeable to the eye and the dictates of good taste. While the car has cost near $20 000 there is nothing gaudy about it. Durability comfort and good taste prevail.

Yesterday morning a number of invited guests were at the Union depot to inspect the car. The leading officials of the company were also there to see the latest specimen of the car builder's art and the newest proof of the capacity of the company's shops at Bloomington. A new hair car and a buffet car was attached to the dining car the whole forming part of a special train that left for Bloomington at 11 25 o'clock and returned to the city at 4 30 o'clock, after a pleasant and rapid but exceedingly warm run. Mr W R Sullivan was chosen chairman of the party and Mr F A Jewett secretary. A number of very lively, appropriate and amusing speeches were made. A vote for president being taken Mr Blaine received none. Mr Cleveland none. Ben Butler 1 and Mr James Charlton 71. Mr Holabir of the Santa Fe road having voted for Butler moved to make the nomination unanimous which was done and Mr Charlton at once gave each gentleman an office. As the lunch was an unusually good one a committee on resolutions presented the following which was unanimously adopted:

That we, over the fertile prairies that lie between the railway center of the world and one of the great centers of railway construction — Chicago and Bloomington — we, the guests of the Chicago and Alton road wish to testify our appreciation of the design, finish and appointments of the new dining car Charlton which shows the marvels of modern railway mechanism and honest excellencies of gastronomical comfort on wheels. Thanks are tendered to the officers of the Chicago and Alton road for the hospitality shown and the privilege of witnessing the perfection to which railway construction and operation can be brought under the care of their highly experienced and competent men.

A Starch Eater
Lowell (Mass) Courier

A woman living in Ayer's City has acquired the habit of eating starch and the habit has become so fixed that she has eaten eighty pounds of it during the last five months. She has suffered no illness from it but consulted a physician who gave her a medicine which he thought would lead her to discontinue the habit. She buys the starch in six pound boxes. Starch in concentrated form ought to be a pretty stiff diet.

Having been afflicted with Hay Fever for years I gave Ely's Cream Balm a trial. I have had no attack since using it. E R Bauer editor Carbon Co Democrat Mauch Chunk Pa.

CITY.

FOILED TOWARDS BY A WOMAN —About 3 o'clock yesterday morning Mrs John Garnold was awakened by a noise in the workshop adjoining her house in the undertaking establishment of Ewry & Garnold at the corner of Second and Taylor streets. Mr Garnold was absent at Salem and Mrs Garnold thought that Mr Ewry had come down to fill some order which required immediate attention. Dressing she went out into the workroom and was surprised to notice that the lamp which is left burning had been turned down. She passed through the workshop and opening the door of a room at the end saw two men, one of whom was rummaging in a drawer of a desk while the other was busy with a hammer and chisel endeavoring to force open another drawer. The tableau did not last long as the man with the hammer yelled "I'll fix you" and drew back the implement to throw at her. Mrs Garnold dodged and the hammer struck her on the shoulder and as she made for her room a piece of board struck her a glancing blow on the side of her head inflicting a slight bruise. She ran into the room, seized a pistol ran back and pointing it at the men said, "Now I'll fix you." Not knowing that the weapon was empty they blew the light out and ran out the back door and through the shed to Taylor street. It is a pity the weapon was not loaded as in that case there would probably have been one burglar less in the city. It was found that a desk and the safe in the wareroom had been opened and nothing taken therein, the thieves had then visited another desk the drawers of which being of hard wood caused them to make their work much noise and Mrs Garnold. There was something over $10 in the desk robbed. Next time the money will be placed in the safe.

BROUGHT SUIT —L. B. Seeley who a short time ago commenced suit in the United States district court against the Oregon Iron and Steel company ... commenced suit in the same court against ... individually to prevent him from transferring a large amount of stock which it is claimed he holds in trust for Mr Seeley and also to prevent him from disposing of a note put in Mr Reed's hands on conditions which it is alleged have not been complied with. This suit appears to be an outgrowth or side issue of the former one. The whole trouble arises out of the failure of the Oregon Iron and Steel company to materialize but the matter is of such an intricate and complicated nature as to go beyond the comprehension of a reporter or an ordinary mortal. The public will probably have a better insight into the business before it is settled than it is possible to obtain at present.

TESTING A PATENT SECTION —Chief Engineer ... and one of the companies of the fire department last evening to test the Hayes patent telescope ... an ingenious arrangement of short sections connected by flexible joints for connecting the engine with a hydrant. The thing was a complete success as the engine was enabled to throw a stream far enough to burst a length of hose in good style. There was just a little too much ... going on with the hose. The boys at ... under pretense of straightening out the hose, threw a young man on his beam ends, and also sprinkled water where it was not needed. The members of the paid fire department can scarcely get as much license as was allowed the old volunteer boys who worked for fun and glory and so ... mothers of both.

INJURED AT ST VINCENT'S —A P Wilson the young civil engineer who was injured by falling into the excavation for a building on First street near Salmon, Monday night is now lying at St Vincent's hospital in a very precarious condition. Examination has shown that his left side is completely paralyzed and the doctors in attendance fear that the injury will be permanent. He is from Iowa and has been in the city only a few days, being comparatively without friends. Mrs Thomas Mc... who was seriously injured last Friday by a runaway ... and who is also at St Vincent's is now ... much more comfortable than at any time since the accident. It is thought the collar bone and ... were fractured will unite in ... shape and if there are no complications ... now be foreshadowed, her ultimate recovery is certain.

SALE OF OLD BOOKS —The library of an old German doctor named Adolphus who died in the poor house about six months ago were sold yesterday at auction at the corner of First and Oak streets. There were many valuable works although most of them were printed in foreign languages. The books were put up in lots of a half dozen or more in each and sold for about four-bits per lot. One book on a curious treatise on the study of medicine was by request of a certain physician put up by itself. The physician was much surprised to find a spirited contest in bidding in the person of a German ... The latter bid $2 50 which was about the original cost of the book and it was knocked down to him. When asked what he intended to do with the book, he said he was going to learn how to cure fever and ague.

FIRED AT A NEW HOLE —James Turk was arrested yesterday on a warrant issued by Justice Green charging him with shooting at James Colleus with a pistol loaded with powder and a leaden bullet as the lawyers put it. It seems that Colleus on the evening previous used insulting language to Turk while Jim is well known to be a mild man ... but there is a point in being abused when forbearance ceases to be a virtue and just as Colleus had reached this point Jim whanged away at him with the aforesaid pistol, loaded with powder and a leaden bullet as aforesaid. The shot did not prove fatal owing to the thickness of Colleus' skull but it had the effect of bringing his remarks to a sudden close. Turk gave $500 bail for his appearance today.

TO FORECLOSE A MORTGAGE —Suit was commenced in the United States district court yesterday by Balfour Guthrie & Co against M. B. Rankin and wife H. M. Dement assignee, P. B. ... Starr, the South Portland Real Estate Association Portland Savings bank and others for foreclosure of a mortgage. In October 1883 Rankin borrowed $6000 from Balfour, Guthrie & Co giving ... secured by mortgage on lots 4 5 and 6 in block ... of Caruthers addition. Balfour, Guthrie & Co wish to foreclose the mortgage to obtain their money and the co-defendants with Rankin claim to have a lien on the property through judgments obtained against him at the time he made an assignment.

CRUELTY TO A BEAR —The attention of the society for the prevention of cruelty to animals has been called to a bear which is chained on the bank of the river just south of the city limits. The poor beast is nearly starved, and is said to be perishing of thirst, although so near the water. The bear should either attend to it properly or send it to roam in the happy hunting grounds.

The house has been running behind for some time principally in the payment of its liquor bills, to secure which the establishment is now in the sheriff's hands. ... creditor attaches to secure $501 and Gordes & ... to secure $164.

BEAR HUNTING —Frank Botefuhr and a party of friends returned yesterday from a few days sojourn at Multnomah falls. They killed several fine fat deer and caught a fine string of trout between the foot of the falls and the Columbia. The mountains in that vicinity are full of deer and parties who wish to spend a week where they can enjoy good hunting, pure air and water and plenty of exercise will find that them anywhere in the Rooster rock country. For that matter anywhere along the west side of the Cascade range.

COUNTERFEITERS ARRESTED —On Sunday last Chief of Police Parrish was notified that counterfeit dollars were being put in circulation here. Policemen Barry and Simmons were detailed to hunt up the shovers of the queer. They found yesterday where a number of the bogus dollars had been passed, and Frank Smith a *Telegram* reporter notified them that he had seen a man buying a small quantity of block tin, antimony and lead in a down town establishment, and gave a description of the man making the purchase. Last evening a man named Wing brought a counterfeit dollar to the police office which a fellow had passed on him, receiving a plug of tobacco and eighty-five cents change. He gave a description of the queer and the officers who had been looking after some suspicious parties at the Little theater were then sure they were on the right trail and arrested three fellows who gave the names of John Brown, William Rogers and F. Wolf. A number of the counterfeit coins were found on their persons. They are rather a poor counterfeit, being roughly executed especially on one side are much lighter than a silver dollar and have a peculiar feel which should enable any one to detect them as soon as touched. There is another member of the gang whom the officers hope still to secure. Any person who has had a counterfeit dollar passed on him lately will oblige the ... by calling and seeing whether he can identify either of the parties arrested. The counterfeiters have been in the city for about three weeks and are believed to have come from Montana. One of them worked in a foundry as a moulder for a day or two. It is very fortunate that the police have succeeded in so speedily securing these fellows and if they are only able to find their tools convict them and send them to the penitentiary, they will deserve the thanks of the community.

KNOCKED DOWN AND ROBBED —About half past ten last night two young men sitting at the side of the National Hotel facing the foot of Yamhill street discovered what appeared to be the lifeless body of a man. Examination showed that his pulse was still beating though he was unconscious, that he had been beaten over the head and that his pockets had been rifled. On being raised to a sitting posture the man partly recovered his senses but was unable to give an account of himself. The police were notified and the man was taken to headquarters. By this time he had recovered consciousness sufficiently to say that his name was William Hooker, that he was a printer lately from Los Angeles, that he was walking along the east side of Front street between Yamhill and Taylor that two men approached knocked him down with a club and robbed him of his gold watch and chain, three rings and all his money—about $60. His claim to that amount of money indicates that his brain was not entirely clear, because no printer since Gutenberg's time was ever known to be guilty of carrying so great a sum of money loose in his pocket. About midnight a committee from the Typographical union found him comfortable lodgings and secured medical attendance.

REDUCED FARES FOR THE SOUND —Yesterday the O R & N Co. issued a circular reducing the following passenger rates on Puget sound ports. From Tacoma to Victoria $4 50 round trip tickets for Heretofore the rate was $6 between these points and no reduction for round trip tickets. Twelve dollars to $3 what a ... From Seattle to Victoria $4 round trip $5. The round trip tickets are good until September 17. These reductions have been made to stimulate a rapidly increasing tourist travel on the Mediterranean of America.

McIlone and A. ... all prominent business men of Columbus, Ohio arrived yesterday from the east and are registered at the Esmond. They came by boat from The Dalles. The river ride is growing more into favor among tourists particularly as it can be taken with only five hours additional time, while the change from rail to river to finish so long a journey is always acceptable during our glorious summer.

NOT A SUCCESS —Three Brush electric lights illuminated the north end of First street last night. One was placed at Mill, one at Harrison and one at the bend above ... street. Various opinions were expressed as to their efficacy for street illumination. Some were of the opinion that the lamps were placed too high, others that they were too ... others that they were too near the buildings and trees. Certain it is that while ... foliage the light as shown last night was anything but satisfactory.

ASSIGNMENT FOR THE BENEFIT OF CREDITORS —Paul Ritchart a well known dive keeper of this city yesterday made an assignment for the benefit of his creditors to Ben Warren. Ritchart furnishes an inventory of everything he owns even to a lemon squeezer and a cigar case, the entire value of which is placed at $22 8. His liabilities are $400 ... The principal creditors are Henry Weinhard $ ..., ... Isenberg & Bro ..., ... & Co $850.

FALSE REPORT —A report was in circulation on the streets yesterday that the Merchants hotel at St Paul was burned on Saturday last with great loss of life. In answer to inquiry by wire THE OREGONIAN last night received a dispatch from St Paul stating that the hotel had not been burned. The report was started by a Pullman car conductor who arrived at ... that he heard the news at Fargo the day after he left St Paul and it came so straight that he did not doubt its genuineness.

SHIPMENT OF SALMON —Since the 1st of last April, says the *Astorian*, there have been shipped from Astoria 181 ... cases salmon. Of this amount ... cases went on board the San Francisco steamers, ... went on the Ferndale, Hats Chee, Coleworth and W... ... on the Aberystwith Castle and Jessie Janson to London and ... overland via Northern Pacific railroad. THE NORTH BEACH RAILROAD

Permanent Survey of the Line from Ilwaco to Shoalwater Bay Completed—Work will Commence Soon.

Messrs Hawgood and Lupfer, civil engineers of this city, have just completed maps of their permanent surveys of the Ilwaco, Shoalwater Bay & Gray's Harbor railroad that is to say the first section of the road leading from deep water in Baker's bay to deep water in Shoalwater bay, a distance of seventeen miles. To an OREGONIAN reporter, who called upon the engineers at their rooms in the Labbe block yesterday the engineers courteously extended the following information:

The line will commence at the outer end of the long wharf at Ilwaco, run over the present piling which will be braced a distance of 850 feet and thence on piles across the cove in front of Ilwaco. Thence it runs through the town of Ilwaco ... Holman lake on piling, thence northerly and westerly skirting Johnson's lake avoiding ... which foot passengers and teams have to cross to reach the ocean. The elevation at the edge of the lake is eighteen feet. From Johnson's lake it runs ... lowest cross ... Crystal lake and turning to the north back of Shinte ... bluffs, hence fifteen miles due north along the line ..., from 200 to 800 feet back of the last line of breakers. It runs half way through Ocean park, then runs northerly across the peninsula to a point just above Yellow bluff where there is deep water in Shoalwater bay.

The road will not run to Oysterville, its northern terminus being about one and one-half miles south of the town. This terminus has been selected for the reason that the deep water channel is only 1800 feet from the shore here, while at Oysterville the deep channel is nearly five times that distance and will require of course five times as much pile trestle.

For the entire distance along the shore the road is almost a dead level and will require very few cuts and fills. From Ilwaco to the coast there is a grade of one per cent or a very short distance, and from Ocean park to Shoalwater bay there is a grade of three quarters of one per cent also for a short distance.

Mr ... A ... a ... president of the company, is expected here to-day to begin preliminary arrangements for construction. Every visitor to the coast will be glad to learn of the prospective building of this line. As cars will run within sight of the ocean for half the distance up the beach the ride in summer will be simply magnificent. It is understood that the finances of the company are in such a condition as to justify construction at the earliest practical moment.

AMUSEMENTS.

NASHVILLE STUDENTS —The entertainment given last evening at the Pavilion by the Nashville Jubilee singers was, if possible an improvement upon that of Monday. The members of the company were thoroughly rested after their tedious journey and threw more life than ever into their songs and choruses. A programme largely differing from that of the previous evening was given and judging from the applause with which the selections were greeted, met with universal favor. A prominent feature was the brilliant accompaniment by the pianist Mr Jacob J. Sawyer who is one of the best ever heard in the city. A matinee will be given this afternoon, when school children will be admitted at half price, general admission 50 cents. The last concert will take place this evening with another complete change of the programme. Those who have not heard the Nashvilles will do well to do so before they leave the city.

IRMA THE WAIF —The beautiful comedy drama entitled Irma the Waif will be produced to-night at the New Market theater with Ben Cotton, Little Idalene and the full strength of the company in the cast. Mr Cotton has played this piece over one thousand times in the United States and has always made a great success of it as it serves to introduce himself and his talented little daughter in parts especially adapted to them. The drama will be produced full attention being paid to details, with the following cast:

Irma the Waif	Little Idalene
Buck ...	Mr Ben Cotton
Olive Eggleston	Mrs Nellie Cotton
...	Mr W. O. Lawler
Lord Victor Preston	Mr Hurst Marshal
... Harkness	Mr Geo T. Snow
...	Mr W. A. Brady

A well will be dug somewhere on the mill company's grounds of sufficient depth and capacity to furnish the adequate water supply. Living water is found in abundance here ten feet below the surface and it is thought that by digging twenty feet a sufficiency of excellent cool water can be had at no more than the ordinary expense.

The Chicago, Milwaukee & St. Paul Railway is the short line to all eastern points, and it runs the finest dining and sleeping cars in the world.

THE EAST SIDE.

THE CITY VIEW PARK RAILWAY.

Prospects are fair for this company being relieved from its long embarrassments, and the road, which has been neglected in consequence, being completed and operated at an early date. It is stated authoritatively that a well known capitalist has become interested in the enterprise, and that sufficient capital is now at command to pay off all indebtedness, including the claim of the Pacific Rolling Mills Company for $1400 judgment for which was recently rendered by confession in the United States district court and carry out the ultimate object of the company, viz to build and operate a street railway between East Portland and Milwaukie. Matters are not yet definitely settled, and will not be for a day or two and it is likely the company will be reorganized under a new name—probably the East Portland and Milwaukie R R Co. The company however has gained the advantage by the suspension of operations of a reduction in the price of material of 30 to 40 per cent from those prevailing when the road was first projected, while labor is also cheaper. The company expect to have matters adjusted and resume construction in about ten days or two weeks.

SUIT ... A CONSTABLE.

The suit of Dave Gee against M. F. Colvag formerly constable of East Portland precinct arises out of a case in which plaintiff was placed under arrest by defendant for larceny by bailee, held in confinement for one day and upon examination acquitted. Gee had sold a mortgaged cow, and was charged with squandering the proceeds of the sale, instead of turning them over to the mortgagee as he agreed. It appeared at the trial however, that the mortgagee had given Gee the privilege to dispose of mortgaged stock provided he replaced it with as good or better, and evidence was adduced to show that, after the disposal of the cow, he was making arrangements to replace it by another. Gee also claimed he had been robbed of the proceeds of the sale. He was accordingly acquitted by the jury and as a suit subsequently commenced the present suit against the constable for false imprisonment claiming that his reputation has been damaged to the extent of $1000. Those acquainted with the plaintiff will no doubt consider this rather an extravagant estimate. The case is now pending in the circuit court.

FIRE

About half past six last evening the small dwelling situated at the north end of the Twelfth street bridge between J and K streets was discovered to be on fire. The alarm being given the Indian employed by John Ex... was the first to get a team to the engine but by the time it arrived at the fire the building was all ablaze. Meantime a number of men had torn down a small barn adjoining the building on the north and thereby saved the fire from communicating to the dwelling on the corner. Water was obtained from a private cistern at Mr H. C. Carman's residence one block above, but this was pumped dry in a few minutes but luckily not before the fire had been so far subdued that it could be controlled by buckets. The Third Ward Hook and Ladder company arrived in time to assist in pulling down the remains of the building. The firemen did effective work especially in tearing down the barn by which several were more or less bruised. The origin of the fire is a mystery. Dr Royal, who was one of the first to arrive found the house locked, and breaking open the front door discovered the place empty, while the fire appeared to originate from the flue. The building was owned by Mr A. T. Workman, a mail carrier of Portland, who recently insured it for $200, which will nearly cover the loss. For the past month the house has been rented to a family named Masse, but these left yesterday without having given any notice of their intention to do so.

ACCIDENTS TO CHILDREN

A daughter of M. F. Colver, aged 3 years playing in the garden of her residence on the corner of Sixth and F streets last evening fell and dislocated her collar bone.

A daughter of Mr Shively aged 12 years residing about a mile and a half east of Sullivan's addition, was standing on a step ladder attending to some fruit in a fruit dryer yesterday afternoon when she accidentally fell and struck her mouth against some sharp article bruising her upper lip and knocking a loose tooth out of her upper jaw and cutting a deep gash in the lower lip ranging downward to the chin. She was attended by Dr Dav Raffety.

THE BURGLARS AGAIN

The bedroom window of L. B. Phillips who resides on the corner of Eleventh and V streets was opened by a robber night before last. Mr Phillips awoke and asked his business, thinking it was a neighbor, but the interloper replied by leaving hastily. The former gave chase with a revolver but he was unable to get a bead on him, and the fellow escaped.

The residence of Mr C. M. Wiberg located about two miles out on the Base Line road is also reported to have been burglarized night before last and $160 secured.

The residences of Rev Crosier and Mr Fields at Mount Tabor were also visited that of the latter being ransacked, though nothing has been missed.

McCOY VS. HOFFMAN

The recent judgment against plaintiff having been set aside by consent of defendant, the case was tried on its merits by a jury in Justice Coleman's court yesterday. The plaintiff's claim was for $61 but the jury awarded him $23 60. $10 of this amount being allowed for printing ordered by Douglas but received by Hoffman.

NOTES

The fire last evening demonstrated the necessity of a hydrant in the vicinity where it occurred, none being located above Seventh street.

Business having taken H. C. Myers from the city W. C. Hardin has been appointed to succeed him as master of finance of Phalanx lodge, Knights of Pythias.

The streets committee to whom the matter was referred at the last meeting of the council have found it necessary to order I street closed to general travel from the east side of second to Water and Water from I to L. Access however will be allowed teams going to Ainsworth wharf and Capt Cook's coffin factory which are situated within the barriers. As lumber and labor is now cheap it would be to the interest of property owners to rebuild the present season.

OREGON BLOOD PURIFIER PFUNDER'S KIDNEY & LIVER-REGULATOR.

Michigan State College.

I have several times examined baking powders in the market to determine their purity, raising power and influence on the health of those using them. I have uniformly found **DR. PRICE'S CREAM BAKING POWDER**, *the best in all these respects.*

I have just made another examination of the "Royal," "Andrews' Pearl" and "Dr. Price's Cream," and the results are the same as formerly. DR. PRICE'S CREAM is free from AMMONIA, while the "Royal" and "Andrews' Pearl" both contain Ammonia. The final reaction of "DR. PRICE'S CREAM" is acid, while the "Royal" and "Pearl" give an ALKALINE reaction, which LEADS to DYSPEPSIA. Price's is a pure, clean and elegant proportion of Cream of Tartar and Bicarbonate of Soda, and there does "in no wise enter into it anything that defileth, neither whatsoever worketh abomination, or maketh a lie."

In raising power "Price's" stands at the head.

The relative amount of Carbonic Acid Gas given off by the same weight (10 grammes) of these powders, heated in the same way is as follows:

Dr. Price's Cream Baking Powder ... 650 cubic centimeters
The Royal ... 600 cubic centimeters
Andrews' Pearl ... 543 cubic centimeters

I have used PRICE'S in my family for years. "Even at the price is higher PRICE'S is always the best." PROF. R. C. KEDZIE.

Lansing, June 3, 1884.

HOUSEKEEPERS' TEST

Every housekeeper can test Baking Powders containing the disgusting drug AMMONIA by placing a can of "Royal" or "Pearl" top down on a hot stove until heated. Then remove the cover and smell.

WEDNESDAY MORNING, JULY 30, 1884.

TRADE AND COMMERCE.

TUESDAY, July 29.

Railway stocks to-day on the New York boards are generally a shade lower, but recent advances are small sufferers. As before noted the feeling is one of confidence, and investors are placing their money in the most prominent stocks.

The salmon canning season closes with this month, and, while it is not believed that any of the canners will extend operations into August, there is a slight possibility of a few days' extra fishing on the part of those who have stock on hand. The pack is a large one, and can fall little short of last year. A very few of the canneries have already closed down, having used up what stock they had in hand. Fish are plentiful; in fact, too plentiful for the boatmen or the canner. In the northern waters there now appears to be an increased run, where until very lately few fish were seen. There is yet no sure thing that the northern pack will be a small one. As the run in the Columbia showed such remarkable increase there is no good reason why it should not extend up the coast.

Overland receipts include 50 kgs 50 cs syrup, 50 c same, 10 cles bacon, 26 cs lard, 220 kgs nails, 30 cr 117 bl beer.

PRODUCE RECEIPTS—Past 24 hours: 551 bbl flour, 2½ ctls bran, 30 ctls millstuff, 16 sks potatoes, 726 lbs wool, 1170 lbs hides, 54 cs eggs, 2 bxs butter, 44 bxs fruit, 152 bbls lime. Also 478 ctls wheat, 150 bols flour, 7885 lbs wool from the eastern section.

SALMON SHIPMENTS—Per str State of California to San Francisco July 29: G. W. Hume, 200; Eureka Pkg Co, 150; Astoria Pkg Co, 156. Total: 2706 cases.

FREIGHTS—The Belle of Oregon and Alameda are preparing to take salmon berth. Rumors of the using of a vessel for lumber could not be traced and it is not thought a transaction had been consummated. Tonnage to arrive is more freely offered, but bids do not exceed 42s 6d for wood and 50s for iron, which owners are unwilling to accept at present. Of late considerable has been doing in lumber freights from the Sound, a class of vessels seeking this freight in order to reach the west coast.

WHEAT—The market shows absolutely nothing of new interest. Both buyers and sellers are casting about them to see what the new crop year will develop.

MILLSTUFF—Business light from first hands. The jobbing trade continues even with prices steady and unchanged.

OATS—Sales of feed are made at 44@46c, the latter for good. Very choice, suitable for milling, will bring an advance. Receipts have been small, but there seems to be plenty on hand.

POTATOES—This article is still a drag and selling at 25@30c per bushel. No relief appears possible.

ONIONS—Jobbing at 1@1¼c, as to kind.

DRIED FRUIT—Business light at old prices, the demand being only seasonable.

GREEN FRUITS—A fair quality of apples sold at 35c, and it is hard to obtain over 50c for the best local. Plums in overstock and drag at about 1c. Peaches of the best qualities are not yet received. Blackberries plentiful at 3@4c.

EGGS—Stocks ample and 27½c is the price to-day. Values hinge upon receipts.

CHICKENS—Stocks quite liberal and outside quotations had only for the most desirable. Quote: Young, $2 50@3 50; old, $4@5 50. It is thought the market will rule lower.

SHIPPING NOTES.

The bark Navesink, 724 tons, was chartered to-day by A. W. Berry to load lumber at Astoria for Montevideo; terms private.

The Mt. Washington will discharge the remainder of her cargo this week. It consists of about 80 tons of steel rails.

The Alameda is discharging coal at D street.

The Belle of Oregon will receive wheat about Thursday.

To defend piles from the ravages of the teredo in the region around the Gulf of Mexico, they are treated, for a couple of days, to a bath of crude oil of coal tar, forced into the pores but, under a pressure of 150 pounds to the square inch. During this process each cubic foot of the timber absorbs, on the average, one and one-half gallons of the oil.

It is reported that the port of Rio Janeiro is to be lighted by the Brush system of electric lights.

The first steamer with a cargo of coffee direct from Brazil, has arrived in the harbor of St. Petersburg, Russia.

Nautical Gazette. It is stated that the Northern Pacific Railroad Company sent an agent to Hong Kong to see how much business could be obtained for a proposed line to run to Portland or Puget sound, in connection with the Northern Pacific. Upon the receipt of a favorable report it is claimed that sufficient capital was raised in London to establish the enterprise. For the present the company will charter a few ocean "tramps" in and about Hong Kong, and will probably ship their first cargo of tea early next month. It is claimed that the route to New York via Portland and Chicago being much shorter, all tea trade must come by the new route.

NEWSPAPER WAIFS.

There is a great deal of billing and cooing going on at the seaside. The principal part of the billing is being done by the hotel keepers.—Texas Siftings.

A scientific journal discusses "eggs as food." This strikes us as being a rather sensible idea and productive of much more good than discussing eggs as bouquets.—Oil City Blizzard.

"Siam is the place where there are neither Jews nor swine," said a person to a Rothschild once. —"Indeed," was the reply, "let us go and exhibit ourselves there."—Jewish Messenger.

Concerning Union Pacific, the money article of London Truth observes that "the appointment of Mr. Francis as president will doubtless inspire some confidence in the future bona fides and soundness of the management."

Some one claims to have discovered that chloroform will cure cholera. We should think it might. It has been known to cure poverty and disappointment in love, and these are more stubborn maladies than cholera.—Norristown Herald.

Complimentary.—Jim Cooper has a fine pointer, but Bob McArthur has none. "Let us go out hunting to-morrow," said Bob to Jim. "But you haven't got any dog!" "Of course I haven't. If I had a dog, I wouldn't want you to go along with me."—Texas Siftings.

"Do you think there is any seashore place equal to Nantasket?" asked an enthusiastic South Shore man. "Well," said Spicer, as he picked up a boy's top and thoughtfully placed it peg upwards in the fat boarder's favorite chair, "I think the steamboat landing is the pier of Nantasket."—Boston Commercial Bulletin.

Ben trovato—English editorial on American politics: "The yearly gubernatorial election in the United States is likely to result in a victory for the whigs. The federalists, under the leadership of Mr. Blaine, who was recently nominated for mayor of Chicago, are hopeful of success. This now distinguished party leader was brought from the Sandwich islands by Mr. Barnum and exhibited as the tattooed man. Having learned something of American politics while traveling around the provinces, he abandoned the show business and devoted himself to the work of writing a book. The advance proof sheets showed such insight that he was at once taken from his lowly condition and placed prominently before the people. Mr. Tilden, the prominent barnel maker has declined to vote in the coming election.—Arkansaw Traveller.

"Texas has no race courses." One-half of the population are so busy stealing horses and the other half so occupied in running down and lynching the thieves that they don't have time to hold horse trots.—Norristown Herald.

The number of married American women now in Paris without their husbands excites the astonishment of the natives. Parisians evidently don't know what insignificant things husband are in this country.—Burlington Free Press.

First New Yorker—"Have you seen Lulu Hurst, the magnetic girl?" Second New Yorker—"Oh, yes; I was on the stage as one of the committee." "And did she make you dance around at her bidding, the same as the rest?" "Yes; but I don't think she could have done it if it had not been for the strange resemblance. That was what upset my nerves." "Resemblance! What resemblance?" "Why, she looked just like my wife."—Philadelphia Call.

Realism—"Oh, I do so much like this book," said a lady, putting aside, with a weariness that could not be concealed, a work from the pen of a realistic novelist. "Everything is so natural. Why it speaks of the heroine stopping on the stairway and tying her shoe." "Very thrilling," replied her husband. "Oh, no, dear, it is not thrilling, but it is so real. That's what I call fine art." "It was no doubt necessary for the young lady to stop and tie her shoe, but I don't know that it was art. Any one, of even slight digital education, can tie a shoe." "Oh, you don't understand. The mere act of tying a shoe implies no art, but the fact that the novelist should have spoken of anything so natural is art." "Then, in your opinion, high art must be easily attained. I am thinking of writing a piece of high art. I feel the inspiration. Give me pen and paper." Turning to a table he busied himself with writing and then, calling his wife, said: "Here is a chapter from my forthcoming book: 'The calf stood in the lot. A horsefly buzzed among the leaves of a peach tree. A grayheaded man, with a gouty limp, blew his nose and let down the back window. The calf switched his tail. A hawk flew over and a chicken squalled.' The calf held up his head and said bah. A dog jumped over the fence and cautiously approached the calf. The calf snorted and looked intently at the dog. The calf said bah and the dog tucked his tail and jumped over the fence.' Now, my dear, is not this realistic?" "It is disgusting." "It is perfectly natural. Take, for instance, the old man blowing his nose. How lifelike it is, quite as much so as the picture of the young lady who tied her shoe. I make you tired, eh? I see that you do not like realism."—Arkansaw Traveler.

Young wife (thoughtfully)—Well, as my husband is away, and there is no one in the house but mother and myself and the two servant girls, you had better send a side-saddle, I think.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purification of the blood. If this is neglected, the disease perpetuates its taint through generation after generation. Among its earlier symptomatic developments are **Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas, Purulent Ulcers, Nervous and Physical Collapse,** etc. If allowed to continue, **Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases, Tubercular Consumption,** and various other dangerous or fatal maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it eradicates from the system **Hereditary Scrofula,** and the kindred poisons of contagious diseases and mercury. At the same time it enriches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great

Regenerative Medicine

Is composed of the genuine *Honduras Sarsaparilla,* with *Yellow Dock, Stillingia,* the *Iodides of Potassium* and *Iron,* and other ingredients of great potency, carefully and scientifically compounded. Its formula is generally known to the medical profession, and the best physicians constantly prescribe AYER'S SARSAPARILLA as an

Absolute Cure

For all diseases caused by the vitiation of the blood. It is concentrated to the highest practicable degree, far beyond any other preparation for which like effects are claimed, and is therefore the cheapest, as well as the best blood purifying medicine, in the world.

WOMAN'S SUFFERING AND RELIEF.

Those languid, tiresome sensations, causing you to feel scarcely able to be on your feet; that constant drain that is taking from your system all its former elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can easily be removed by the use of that marvelous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain are permanently removed. None receive so much benefit and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
